

USING YOUR ASSISTIVE DEVICES IN THE ERA OF COVID-19

Shanina Knighton **PhD RN**

**ATTENTION TO DETAIL & HAND HYGIENE
IS ESSENTIAL WHEN USING ASSISTIVE DEVICES**

- WALKERS
- CANES
- WHEELCHAIRS
- CRUTCHES
- SCOOTERS
- GRABBERS
- PROSTHETICS
- GUIDE DOG HARNESS
- ADAPTIVE UTENSILS

★ COVID-19 VIRAL DROPLETS AND HARMFUL BACTERIA CAN SURVIVE ON PLASTIC OR METAL FOR DAYS SO IT'S IMPORTANT TO KEEP ASSISTIVE DEVICES CLEAN.

1 WASH YOUR HANDS

FOR A MINIMUM OF 20 SECONDS OR USE HAND SANITIZER AND RUB OVER ALL AREAS OF THE HANDS UNTIL THEY ARE DRY.

**ESSENTIAL
TOOLS**

FOR PEOPLE WITH
DISABILITIES

DIY DISINFECTANT

IN AN EMPTY SPRAY BOTTLE

- MIX:
- $\frac{1}{3}$ WHITE VINEGAR
 - $\frac{1}{3}$ WATER
 - $\frac{1}{3}$ ISOPROPYL ALCOHOL WITH 70% ALCOHOL

2 DISINFECT DEVICES

THAT YOUR HANDS COME IN CONTACT WITH BEFORE AND AFTER EACH USE.

DO NOT SPRAY DIRECTLY ON DEVICE. USE A CLEAN CLOTH, PAPER TOWELS, OR DISPOSABLE WIPES.

3 CLEAN YOUR HANDS AGAIN

IF DEVICE IS ELECTRONICALLY POWERED, POWER IT OFF OR UNPLUG IT BEFORE CLEANING.

PREVENTION IS BETTER THAN TREATMENT
